Quarterly Change in Reported Loans Outstanding

(\$ Billions)

In the first quarter of 2009, real estate loans decreased by \$5 billion, commercial and industrial loans decreased by \$60 billion, and consumer loans decreased by \$43 billion.

Quarterly Change in Unused Loan Commitments

(\$ Billions)

In the first quarter of 2009, unused 1-4 residential loan commitments increased by \$18 billion, unused home equity line commitments decreased by \$40 billion, unused credit card commitments decreased by \$407 billion, unused commercial real estate commitments decreased by \$34 billion, and other unused commitments decreased by \$64 billion.

Credit Risk Diversification

Consumer Loans versus Loans to Commercial Borrowers (as a Percent of Total Loans)

Loans (\$ Billions):

Commercial Borrowers	\$2,484	\$2,515	\$2,869	\$3,546	\$4,074	\$3,972
Consumer Loans	2,163	2,542	3,255	3,690	3,802	3,766

Loans to Commercial Borrowers (Credit Risk Concentrated) — These are loans that can have relatively large balances at risk to a single borrower. A single loan may represent a significant portion of an institution's capital or income. Therefore, a relatively small number of defaults could impair an institution's capital or income. These loans include commercial and industrial loans, nonfarm nonresidential loans, construction loans, and agricultural loans.

Consumer Loans (Credit Risk Diversified) — These are loans that typically have relatively small balances spread among a large number of borrowers. A number of defaults are likely but typically do not impair an institution's capital or income. These loans include consumer and credit card loans, 1-4 family residential mortgages and home equity loans.
